

# Sreeja Akuthota

## Senior Analytics Engineer

Texas, USA | +1 972-583-8873 | sreejaakuthota96@gmail.com | LinkedIn

### SUMMARY

**Senior Analytics Engineer** with **5+ years of experience** designing scalable cloud-based analytics platforms, enterprise ETL pipelines, and business intelligence solutions using Python, SQL, Spark, Airflow, and AWS. Expertise in data modeling, KPI reporting, dashboard development, predictive analytics, and cloud data engineering across healthcare and financial domains. Proven track record of improving data quality, optimizing analytics workflows, and enabling data-driven decision-making through scalable reporting and automation solutions

### TECHNICAL SKILLS

**Programming:** Python, SQL, REST APIs

**BI & Analytics:** Tableau, Power BI, DAX, KPI Reporting, Dashboard Development, Business Intelligence, Predictive Analytics

**Databases:** PostgreSQL, MongoDB, Amazon Redshift

**Data Engineering:** ETL/ELT, Airflow, PySpark, Spark, Data Pipelines, Data Modeling, Dimensional Modeling, dbt, Data Validation, Kafka, Data Lake

**Cloud & DevOps:** AWS (S3, Glue, Lambda, Redshift, CloudWatch, IAM), Snowflake, CI/CD, Jenkins, GitHub Actions, Docker, Data Governance, Agile/Scrum

**AI/ML:** MLflow, TensorFlow, NLP, RAG

### EXPERIENCE

#### VCU Health Systems, USA | Business Intelligence Developer II

March 2025 - Current

- Engineered scalable ETL/ELT pipelines using Python, SQL, PySpark, Airflow, and AWS, processing 10M+ records daily while reducing data latency by 30%.
- Integrated ML-based forecasting and validation models into enterprise analytics workflows, improving predictive reporting accuracy and operational planning.
- Optimized Epic SlicerDicer SQL reporting workflows, reducing manual reporting effort by 35% across clinical operations.
- Developed KPI monitoring frameworks with automated validation checks, reducing reporting discrepancies by 25% and improving compliance reporting accuracy.
- Built interactive Tableau dashboards integrated with AI-driven forecasting insights, increasing stakeholder adoption by 30% and accelerating decision-making.
- Streamlined cloud-based analytics workflows using AWS services including Redshift, Glue, and Lambda to improve reporting scalability and reliability.

#### Capital One, USA | Business Intelligence Engineer

Jul 2024 - Feb 2025

- Designed and optimized enterprise analytics pipelines using Python, SQL, Airflow, Spark, and AWS, improving data availability by 30%.
- Developed scalable dimensional data models and SQL transformations supporting executive reporting and operational analytics.
- Automated ETL workflows using AWS Glue and Redshift for dashboard and reporting consumption.
- Built KPI reporting solutions and Tableau dashboards for customer risk analysis and business performance tracking.
- Implemented data quality validation frameworks that reduced reporting discrepancies by 25%.
- Optimized Spark and SQL workloads, improving analytics query performance and reducing processing runtimes by 20%.
- Supported predictive analytics and feature engineering initiatives for customer insights and business decision support.

#### Hexaware, India | Business Intelligence Analyst

Apr 2018 - Aug 2022

- Built SQL-based BI reporting solutions and enterprise dashboards supporting executive decision-making.
- Developed and optimized ETL pipelines for structured and semi-structured datasets, improving reporting data quality by 25%.
- Automated reporting and data transformation workflows, reducing manual effort by 30%.
- Performed advanced SQL tuning and query optimization across large datasets to improve reporting performance.
- Created KPI scorecards and trend analysis dashboards to support forecasting and operational analytics.
- Integrated PostgreSQL and MongoDB data sources into centralized reporting platforms.
- Supported predictive analytics and statistical modeling initiatives for customer and demand forecasting.
- Improved data reconciliation and validation processes, increasing trust and accuracy in business metrics. Errors and increasing trust in metrics.

### EDUCATION

**Master of Science in Business Analytics** | Clark University, MA, USA

Aug 2022 – May 2024

**Bachelor of Technology in Electrical and Electronics Engineering** | JNTUH College of Engineering, India

Aug 2015 – Aug 2019
